Nablus, Palestine | +972543318726

### PROFESSIONAL SUMMARY

---

Full Stack Developer with strong experience in building scalable web applications using JavaScript, Node.js, and PHP. Skilled in designing RESTful APIs, database management, and responsive UI development. Experienced in developing real-world projects with clean architecture, testing, and performance optimization. Passionate about problem-solving and continuously learning modern technologies.

### EDUCATION

---

**Computer Engineering, An-Najah National University**

*Expected Graduation: Aug 2026*

Bachelors of Computer Engineering | Featured coursework: Backend Developer , Frontend Developer, Software Engineering, Web Development, Databases, Cloud Computing.

### SKILLS

---

**Languages** JavaScript · Python · Java · SQL · PHP · TypeScript · HTML5 · CSS · C++.

**Software** AWS · Docker · Bootstrap · Git · Bash · Postman.

**Frameworks & Libraries:** React, Express.js, Jasmine Unit Testing · Node.Js.

### PROJECTS

---

**Image Processing API – Udacity** - <https://github.com/noorjada/image-processing-api-udacity.git>

*Feb 2026 - Mar 2026*

**Technologies:** Node.js, TypeScript, Jasmine Unit Testing , CSS.

**Key Features:**

- Created a RESTful API using Node.js and TypeScript
- Implemented image resizing and optimization functionalities
- Applied type safety and modular architecture for scalable code
- Built and tested API endpoints using Express and Postman
- Ensured performance and error handling for reliable processing

**Book Store Website** - <https://github.com/noorjada/book-store.git>

*Nov 2025 - Dec 2025*

**Technologies:** PHP, MySQL, HTML, CSS.

**Description:**

Designed a dynamic web-based bookstore system that allows users to browse books, manage a shopping cart, and place orders, with a full admin panel for managing the system.

**Key Features:**

- User authentication system (register, login, logout)
- Browse and search books with category support
- Shopping cart and checkout functionality
- Order management system for users
- Admin dashboard to manage:
  - Products (add, update, delete books)
  - Orders and users
  - Customer messages
- Database integration using MySQL (shop\_db.sql)

### Certificates/Awards

---

Udacity – Full Stack JavaScript developer (in progress) .

*Feb 2026 - May 2026*

### LANGUAGES

---

- Arabic
- English
